

Light is timeless

Smarter in the long run

ULTRA LIFE, XENARC® ULTRA LIFE –
go farther with up to four times longer lifetime.

Light is OSRAM

OSRAM

Tried and true durability

OSRAM is the world market leader in automotive lighting. Our customers include the world's foremost automobile manufacturers. Half of all passenger vehicles manufactured globally each year are equipped with OSRAM lights. We are committed to ongoing product development and outstanding durability, backed up with comprehensive quality testing. We make maintaining a vehicle's automotive lighting easy.

Long, longer, ULTRA LIFE

OSRAM ULTRA LIFE lamps just keep on going and going – so if you spend a lot of time on the road, whether driving to work, shuttling round the kids or on cross-country holiday, it's important to choose headlight lamps that offer you the kind of quality, durability and effectiveness you need and depend on – like OSRAM's improved halogen ULTRA LIFE and new XENARC® ULTRA LIFE.

Halogen ULTRA LIFE and XENARC® ULTRA LIFE xenon lamps were designed with durability in mind. The two long-life product families make life just that bit more hassle-free, thanks to a lifetime up to four times longer compared to standard headlight lamps. This means halogen lamp car owners can look forward to up to 100,000 km¹ lifetime, while xenon lamp customers can expect up to 300,000 km¹ of driving pleasure. OSRAM backs this up with rock-solid guarantees – halogen ULTRA LIFE lamps offer four years² for non-commercial usage, while XENARC® ULTRA LIFE lamps provide a unique 10-year guarantee³ for end consumers with online registration. You not only save money on costly replacements, but also save yourself future stress and downtime.

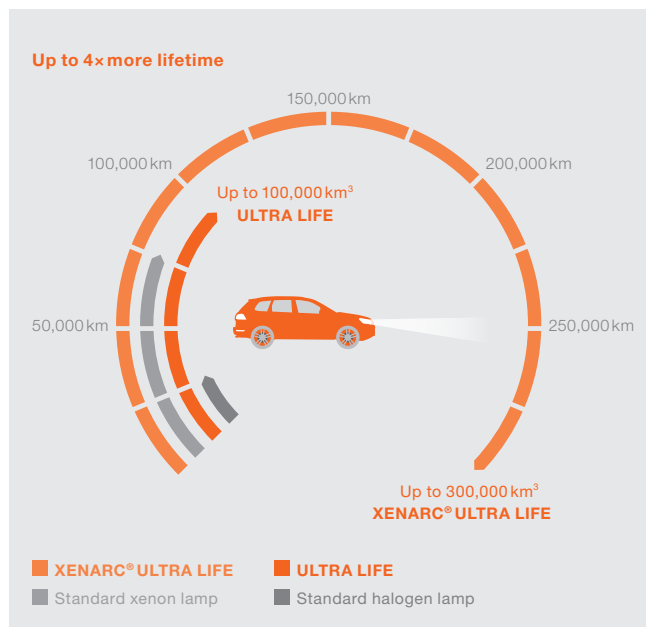

1) With an average annual mileage of 14,259 km and 60% light on

2) 4th year with online product registration. Refer to www.osram.com/am-guarantee for precise conditions and registration

3) With online product registration. Refer to www.osram.com/am-guarantee for precise conditions and registration

Comfort you can count on

ULTRA LIFE products not only provide outstanding durability, but are also extremely easy to handle. With such long lifetime, there'll be an uncountable number of children born, Champion's League matches played and successful Mount Everest ascents celebrated before you have to worry about lamp replacement again. So if you have a car with complicated removal and installation, or with voltage peaks, high board voltage or a history of early lamp failures, ULTRA LIFE is the right light for the job.

When it comes to durability, OSRAM's long-life lamps are made to go farther. Both halogen and xenon ULTRA LIFE lamps are available for the most common lamp types, so there's never a reason not to reach for durability and peace of mind.

1) 4th year with online product registration. Refer to www.osram.com/am-guarantee for precise conditions and registration
 2) Compared to standard halogen lamps

ULTRA LIFE

- 4-year guarantee¹
- Up to 4 times longer lifetime²

3) With an average annual mileage of 14,259 km and 60% light on
 4) With online product registration. Refer to www.osram.com/am-guarantee for precise conditions and registration
 5) Compared to standard xenon lamps

Durable lighting for your peace of mind

The ULTRA LIFE product families come with rock-solid guarantees for non-commercial usage. ULTRA LIFE halogen lamps convince with three years guarantee, plus an additional fourth year with online registration¹. XENARC® ULTRA LIFE lamps provide a unique 10-year guarantee for end consumers with online registration².

Register online within 30 days after purchase at
www.osram.com/am-guarantee

Online registration takes just three easy steps

1. Register with your contact details.
2. Register your product using the EAN code on the packaging, and, in the case of a xenon product, verify its authenticity first using the integrated OSRAM Trust Tool (required: packaging label code, data on lamp base).
3. Upload the receipt.

How to claim your warranty

OSRAM XENARC® ULTRA LIFE or OSRAM ULTRA LIFE headlight lamps that fail to work properly due to a product defect in non-commercial applications during the warranty period are covered by the OSRAM guarantee program and will be replaced. To receive a new lamp, just send the defective product in a padded package along with the complaint form, receipt (in the case of no online registration) and postage paid to the OSRAM contact address from the country list.

¹ 4th year with online product registration.

Refer to www.osram.com/am-guarantee for precise conditions and registration

² With online product registration.

Refer to www.osram.com/am-guarantee for precise conditions and registration

New packaging – simple and effective

Bold, eye-catching designs for all OSRAM product packaging

OSRAM has introduced new color-coding for its various product families. The new packaging is categorized according to product features and comes in black, red, blue, orange – and green. Finding durable car lamps with a great guarantee is now as simple as looking for the packaging in bold green.

Smarter in the long run!

- Find the right product quickly with the new color code – green stands for durability and simple handling.
- Easy overview of product features thanks to large icons.
- The lamp is always clearly visible, whether as a photo on folding boxes or in the window on blister packs and duo boxes
- The vehicle type is shown prominently as an icon in the top-right corner
